# COMPANY SUMMARY

*Orixon is a registered building company that provides high-quality commercial construction, refurbishment and building maintenance solutions.*

Established in 2007, Orixon is a family business that has grown to become a trusted partner for a diverse range of businesses and government agencies across metropolitan, regional and remote areas of Western Australia.

We partner with our clients to assist them in achieving their goals through the provision of high-quality work that is delivered on-time and on-budget.

Our Managing director, Mark Kelly, is a registered builder with over 24 years' experience in the industry. Mark oversees all projects and is supported by a competent team of experienced administrative professionals, qualified tradespeople and preapproved subcontractors.

Delivering quality outcomes on construction projects and providing reliable and timely maintenance work has cemented Orixon's position with our clients as a preferred supplier with a reputation for safety, quality, and reliability.

Long-term contracts and partnerships with companies such as Western Power and The Department of Finance, who hold Orixon in high regard, are a testimony to the quality of our team and the services we provide.

## COMMERCIAL CONSTRUCTION

As a highly capable building company, Orixon has the resources and expertise required to deliver construction projects of all sizes, including, but not limited to, new buildings and modular solutions, major fit-out and refit and refurbishment works, roofing works, surfacing and resurfacing, landscaping, playgrounds and outdoor structures.

From community facilities, and schools, to commercial and industrial buildings, our experienced team of building professionals, and our pre-approved, reliable and proven contractors, led by our Managing Director and Registered Builder, Mark Kelly, ensure Orixon delivers high-quality outcomes that consistently exceed client expectations.

## BUILDING MAINTENANCE

We provide comprehensive commercial maintenance and asset management services across Western Australia for facilities including; government, community, retail and industrial buildings, convention centres, social venues and resorts, sporting arenas and stadiums, hospitals, medical centres and schools.

Our quality processes and procedures enable our team to be flexible and extremely responsive, in providing emergency and last-minute maintenance alongside our planned and scheduled work while still guaranteeing the same, high-quality maintenance on short notice.

## MODULARS

Our construction portfolio also includes the installation, maintenance and refurbishment of transportable buildings in diverse locations with a varying array of requirements and project sizes.

Our experience in both metropolitan remote regions of the Western Australia and partnerships with the mining, oil and gas and recreation industries make Orixon our client's first choice for installing and maintaining transportable buildings.

We have installed modular buildings in many locations, from tight inner-city sites, overcoming significant access and traffic management issues to remote rural and mining sites where cyclonic footings and anchors are required.

## REFURBISHMENTS & HERITAGE

In addition to building and maintenance works, - our construction team is also experienced in heritage building refurbishment work. We understand the intricacies of maintaining and upgrading historical buildings to heritage codes and requirements.

We manage the complexities of such works in partnership with specialist contractors to ensure all works are compliant and completed with respect to heritage specifications, the original construction and finishes and the buildings aesthetics.

# WHY ORIXON ?

## HERE FOR THE LONG TERM

Orixon has been a trusted partner in the commercial building and maintenance industry since 2007 and we value and maintain long-term relationships with all of our stakeholders. We invest heavily in our systems, people and technology for the future and our presence in the industry is growing.

## MEETING YOUR DEADLINES

Our focus on systems, people and technology mean we are flexible and agile enough to deliver work on tight time frames while guaranteeing quality results. We work closely with our clients to ensure we fully understand specific site requirements and time constraints so that we can deliver on time with minimal disruption to the client's day-to-day operations delivering a high level of service and quality.

## GOOD COMMUNICATION

Our people, with the support of our technology systems, prioritise communication and transparency at all levels of our operation to ensure our clients are kept up-to-date from quote to completion of works.

## SERIOUS ABOUT SAFETY

Safety is, and has always been, our number one priority. We have built a strong company-wide culture that balances safety and quality in every aspect of our operations. We also maintain an Occupational Health and Safety ISO 45001 certification and require CM3 certification for contractors, approved by Orixon, who perform work on our behalf.

## HIGHER QUALITY WORK OUTPUT

All of the work we undertake is completed to a quality that meets and exceeds client expectations. Our commitment to our people ensures consistent quality results are achieved. This commitment includes first class professional development and training, quality systems and pre-qualified contractors.

# OUR DIFFERENCE

## TECHNOLOGY INFRASTRUCTURE

Orixon uses a unique technology platform that allows us to manage our work and maintain accountability, transparency and agility on all our jobs. This same system is accessible to our clients so that they can track our progress, view photos of work and be certain of the outcome.

## COMMITMENT TO OPERATIONAL SYSTEMS

Orixon maintains a commitment to improving and utilising operational systems that guarantee quality outcomes and support flexibility. These systems detail the daily operations of our business through policies and procedures. We hold and maintain an ISO 9001 Quality certification which is closely monitored by our management team and modified when opportunities are identified to improve our processes.

## OUR PEOPLE

Orixon has built and instilled in its team, an internal values-driven culture that focuses on safety, quality and constant improvement and maintains a commitment to the development and performance of our people through the provision of regular training and first-class professional development that guarantees high-quality work output for our clients.

## REFURBISH, REPURPOSE, RECYCLE

Orixon takes its environmental responsibilities seriously and has built an internal system around our commitment to 'refurbish, repurpose, recycle'. This includes choosing to refurbish over replacement, using sustainable materials and appropriately and innovatively recycling where possible. We are also committed to repurposing materials back into the community and achieve this by working with local councils and community groups.
